Eligibility by Type

A. Transfer Admission to the 3rd Year

- **Foreigners whose both parents are foreigners**
 - Those who are eligible for international freshman admission and have completed at least 2 years at a regular 4-year university and earned the required credits recognized by the previous university, or are graduates (or expected graduates) of a 2-year or higher-level regular college.

B. Transfer Admission to the 4th Year

- **Foreigners whose both parents are foreigners**
 - Those who are eligible for international freshman admission and are graduates (or expected graduates) of a 3-year regular college, however, if the graduation requirements cannot be fulfilled during the regular semesters due to credit recognition according to the 4th year transfer credit recognition regulations, additional semesters must be completed.
- ※ The “Bilingual Chinese-taught Program” of the Department of Chinese Business and Economics is open only to applicants who are foreigners from countries where Chinese is the official language regardless of Korean language proficiency.

Recognition Criteria for Eligibility and Educational Systems

- Duplicate years caused by repeating the same academic year or semester are not recognized.(However, if the duplication results from differences in school systems and the enrollment was continuous, it may be accepted.)
- Academic backgrounds obtained through domestic/overseas qualification exams (GED), home schooling, cyber-learning, etc., are not recognized.
- Criteria for recognizing the 12-year foreign education system
 - Grades 1 to 6 are considered elementary school, Grades 7 to 9 are considered middle school, Grades 10 to 12 (or 13) are considered high school [Article 98, Clause 1, Item 9 of the Enforcement Decree of the Elementary and Secondary Education Act]
(Educational institutions or programs such as kindergartens or language training courses are not included as regular education.)
 - Even if the total period is less than 12 years, applicants who completed all elementary, middle, and high school courses under the same foreign educational system are recognized as having completed the 12-year education program.
 - If the applicant completed elementary, middle, and high school in two or more countries with different educational systems, they must have completed a minimum of 12 years equivalent to the Korean educational system. (If the applicant lacks a required period due to differences in educational systems, the deficient period can be substituted by credits earned at a university in that country, regarded as part of the high school curriculum.)
 - If all elementary, middle, and high school courses are completed overseas, temporary stays in Korea during vacations, school breaks, or holidays designated by the respective country are still recognized as completion of the full curriculum abroad.
- Exceptions
 - If an applicant who completed the 12-year course in two or more countries falls short by up to one semester (6 months) due to unavoidable differences in educational systems when transferring between countries, the case may be exceptionally recognized.
 - If a country's educational laws and regulations permit grade acceleration (note: acceleration due to transfer or readmission is not recognized) or early graduation, and the applicant's total years of primary and secondary education fall short of the required 12 years due to such acceleration or early graduation, it may be exceptionally recognized.
- Eligibility will be granted considering the specific educational system and academic calendar of the applicant's country.
- According to Article 11-2 of the Korean Nationality Act (regarding dual nationality), dual nationals are treated as Korean citizens.
- Other cases not specified here will be determined by the Hannam University International Admission Screening Committee, considering the differences between the foreign and Korean educational systems.
